

Testimonials

What our customers say about our their experience!

Products Purchased:

Solar system, battery energy storage system, radiant barrier, blown insulation, solar attic fan, HVAC system, on-demand gas hot water system.

Comments:

Complete pro's from beginning to end. Stand behind their products. Made in America, serviced by Americans. Hands down the best experience I've had with product & service. I would refer anyone who is serious about the management of their energy. Great company, great group of people to work with.

- E. Dailey, Hartwell, GA

Products Purchased:

Solar system, radiant barrier, blown-in insulation, solar attic fan, Intellibond HVAC additive, power optimizer.

Comments:

Very good. They stick with it and were flexible and committed to dealing with unexpected situations. Always customer focused – customer satisfaction is a top priority. They will work with you and don't stop until you're satisfied.

- J. Hetzel, Simpsonville, SC

Products Purchased:

Solar system, HVAC, radiant barrier, insulation.

Comments:

U.S. Energy Solutions showed up as scheduled and delivered all services as promised. They were courteous and very friendly. I would use them again and would recommend them to anyone. Great company and trustworthy.

- D. Thomas, Pickens, SC

Products Purchased:

Solar system, HVAC, tankless hot water heater, and radiant barrier.

Comments:

It went great from start to finish. They did everything they said they would do, and so much more! Very accommodating, honest, friendly, dependable, excellent workmanship/personnel, and overall a great company. Great job!

- L. Peckham, Woodruff, SC

Testimonials

What our customers say about our their experience!

Products Purchased:

Cellulose blown insulation utilizing “blown-in-blanket” installation technique (fabric is attached to studs and floor joists and cellulose insulation is blown in behind it).

Comments:

First off, it’s great to have competent and reliable contractors that understand the term “Green.” Using cellulose insulation in the attic and floor of our garage has made all the difference in the world. The folks at U.S. Energy Solutions understood all of our needs and desires and delivered exactly what we wanted. The price was absolutely perfect for the work performed. We just met today with Chris regarding solar energy and power back up systems and will be planning with him for our future solar install. Quality work, materials, excellent pricing, and professionalism speaks volumes for this team. Thanks so much!

- S. Carswell, Greenville, SC

Products Purchased:

Radiant barrier insulation, blown insulation, solar attic fan, power optimizer, Intellibond HVAC additive.

Comments:

Workmen on time, worked well, friendly, pleasant, cleaned up. Extremely satisfactory. All representatives of company were very helpful and informative.

- F. & H. Barker, Easley, SC

Products Purchased:

Solar attic fan, radiant barrier insulation, hybrid hot water heater, Intellibond HVAC additive.

Comments:

Work crew/installers were very polite, very professional. Sales person was very knowledgeable, took extra steps to explain product and what was involved.

- M. Wilson, Campobello, SC

Products Purchased:

Solar attic fan, radiant barrier and loose fill insulation, HVAC system, Intellibond HVAC additive, hybrid hot water heater, power optimizer

Comments:

I have already seen a reduction in the power bill from changes already installed. I am eager to have the project completed.

- J. Campbell, Laurens, SC
