Equipment Covered

Product	Size	Type	Manufacturer	Model Number	Serial Number	Date Installed

Filters: #1 $\frac{\quad}{L}$ " x $\frac{\quad}{W}$ " x $\frac{\quad}{D}$ " ($\frac{\quad}{Qty}$) $\frac{\quad}{Material/Type}$ #2 $\frac{\quad}{L}$ " x $\frac{\quad}{W}$ " x $\frac{\quad}{D}$ " ($\frac{\quad}{Qty}$) $\frac{\quad}{Material/Type}$ Customer to supply filters? Yes No

#3 $\frac{\quad}{L}$ " x $\frac{\quad}{W}$ " x $\frac{\quad}{D}$ " ($\frac{\quad}{Qty}$) $\frac{\quad}{Material/Type}$ #4 $\frac{\quad}{L}$ " x $\frac{\quad}{W}$ " x $\frac{\quad}{D}$ " ($\frac{\quad}{Qty}$) $\frac{\quad}{Material/Type}$

Plan Benefits

- ALL equipment manufacturers and home warranty companies require periodic maintenance to validate their warranties.
- Save money on repairs and reduce your equipment's energy usage and operating costs.
- Assure that your equipment is operating properly and safely for peace of mind.
- Add years to your equipment's life span.
- Locate small issues before they become expensive major repairs.
- Protect your family and your investment.
- Work performed by highly-trained professionals.
- Agreement is transferable.

HVAC Maintenance Tasks Checklist

MECHANICAL

- Replace filters (filters are extra charge).
- Check and record refrigerant levels.
- Record super heat.
- Record sub cooling.
- Chemically flush condensate drains.
- Wash and wax outdoor unit.
- Remove debris from inside of outdoor unit.
- Chemically clean condenser coils.
- Check for air leakage in duct work.

FURNACE (if applicable)

- Check furnace flue pipe.
- Check burners (furnaces).
- Clean flame sensor.
- Inspect heat exchanger.
- Test safety shut-off response.
- Test carbon monoxide levels.

ELECTRICAL

- Check all electrical components.
- Check electrical connections (furnace).
- Check amp draw.
- Check capacitor levels.
- Test heat pump/heat strips.

MISCELLANEOUS

- Level and secure thermostat.
- Check thermostat operation.
- Check condensate pump.
- Check crawlspace humidity and temperature.
- Inform customer of equipment condition.
- Recommend necessary repairs.
